EDUCATION

IADE — Bachelor's Degree in Business Informatics Lisbon, Portugal | 2023–2026

GPA: 14/20

- **Relevant areas:** Business Intelligence, Databases, Programming, Web Development & Information Systems.
- Practical projects using SQL, Python, Power BI, Firebase and iOS development.

PROFESSIONAL EXPERIENCE

Sonant AI — IT Intern Lisbon, Portugal | July 2026

- Contributed to the development and improvement of internal tools and workflows within a startup environment.
- Used Metabase for data analysis and reporting, supporting the identification of issues and opportunities to improve internal processes.
- Developed and refined AI instructions and prompts to improve the behaviour and performance of an AI agent responsible for making calls.
- Collaborated with the development team to investigate technical issues, discuss potential solutions, and improve workflow automation and system efficiency.

Sumol Snow Trip — Trip Guide Andorra | April 2026 (1 month)

- Supervised and assisted a group of graduating students throughout their ski trip to Andorra, helping to ensure a smooth and well-organised experience.

Sushi Dão — Delivery Assistant Lisbon, Portugal | 2025–2026

- Coordinated takeaway orders and deliveries with drivers to support efficient service.

Ás de Copos — Bartender / Barback Lisbon, Portugal | 2023–2025

- Supported bar operations and customer service during weddings, private events and Santos Populares festivals.

VOLUNTEERING

Missão País — Volunteer Portugal | February 2026

- Supported community outreach through visits, social activities, and practical assistance to people in the local community.

PROJECTS

- **iOS Application (Xcode, Firebase, Apple Maps, GitHub):** Developed an iOS application integrating Firebase and Apple Maps, using GitHub for version control and project management.
- **Business Intelligence Dashboard (Power BI):** Cleaned and prepared datasets and created visualisations to analyse data and extract relevant business insights.
- **Web Applications (HTML, CSS, PHP, Firebase):** Developed web applications using HTML, CSS and PHP, including Firebase integration and authentication systems.
- **Database & Python Applications (SQL, Python):** Designed a relational SQL database with table relationships and queries, and developed GUI applications using Python and Tkinter.

TECHNICAL SKILLS & LANGUAGES

Data & BI: Power BI, Metabase

Programming: Python, SQL, JavaScript, PHP

Web & Tools: HTML, CSS, Firebase, GitHub, Xcode, Tkinter
